Wai'Ale is a very exciting buck whose first daughters are freshening this fall and we couldnt be more pleased! They are going to fabulous mammaries, and look to be good milkers as well. His youngstock is very correct in General Appearance, and have amazing euscutcheons.

We are very pleased with Kane's first kids. They are long and tall which was one of the primary reasons for using him. We look forward to what his kids develop into.

Called up was "called up" to provide and maintain milk production. With his grand dam being a fantastic milker (a breed leader!), we look forward to what he may bring to the table. While not used heavily in 2012, we do like his 2013 kids and will be used more this fall!
